

# THINK CULTURAL HEALTH

**NEW!**

## **Culturally and Linguistically Appropriate Services (CLAS) in Maternal Health Care**

Over the past 30 years, the maternal mortality rate in the U.S. has doubled, with significantly higher rates among women from minority groups. Maternal healthcare providers can help eliminate these disparities by delivering the highest quality of care to all women. This program from the HHS Office of Minority Health focuses on culturally and linguistically appropriate services (CLAS) as a key strategy for doing so.

This free, accredited, 2-hour e-learning program is designed for providers and students seeking knowledge and skills related to cultural competency, cultural humility, person-centered care, and implicit bias across the continuum of maternal healthcare.

### **About Think Cultural Health**

Think Cultural Health is a website of the U.S. Department of Health and Human Services Office of Minority Health that provides health and healthcare professionals with information, continuing education opportunities, and resources on how to provide CLAS.

## **AT A GLANCE**

- ✓ Learn how to improve your quality of care by understanding, respecting, and responding to a patient's experiences, values, and beliefs
- ✓ Earn up to 2 continuing education credits at no cost
- ✓ Accredited for physicians, physician assistants, nurse practitioners, nurses, certified nurse midwives, and certified midwives\*
- ✓ Complete the program at your own pace
- ✓ Enjoy a friendly learning experience, using case studies, self-reflection questions, and a Resource Library
